HOSTED ON OPTICS INFOBASE

Access the largest collection of peer-reviewed optics and photonics content via OSA's Digital Library. Why? It is:

RELEVANT.

- ▶ We publish groundbreaking research and define new and growing fields and trends in optics.
- ▶ Our content offers the most citations (40%) and articles (32%) within the Optics category of Thomson Reuters Journal Citation Report®.

AUTHORITATIVE.

- ▶ OSA's journal content is peer-reviewed under the guidance of expert reviewers and editors.
- ▶ Our Digital Library is a comprehensive collection that includes many of the highest impact journals.

MULTIDISCIPLINARY.

- ▶ OSA's content is broad-based and covers many different fields—from physics to engineering to biology to telecommunications and beyond.

REPUTABLE.

- ▶ We publish seminal research, including the findings of key thinkers, as well as Nobel Prize winners and inventors who have changed the technological landscape.

NEW PRODUCTS

▶ OSA's Digital Archive

Retain perpetual rights for your library to over 88 years of groundbreaking optics and photonics content with a one-time purchase to OSA's Digital Archive.

See page 3.

▶ E-Combination Journal Package

OSA introduces a new online-only journal combination option that includes subscriptions to six OSA titles at significant savings.

See page 14.

▶ Conference Proceedings Packages

2012 brings new options for OSA's Conference Proceedings, which allow for access to the entire conference proceedings collection, our Major Meeting Series or a single year conference proceedings.

See page 12.

▶ Optics & Photonics News— Now Available Online-Only

Institutions now have the flexibility to subscribe to online-only access to OSA's premiere news magazine, *Optics & Photonics News* (OPN).

See page 11.

▶ OSA Image Bank (available Mid-2012)

Search and view thousands of high-quality images from a selection of OSA journals for research and classroom use.

SETTING STANDARDS

OSA's collection of 15 flagship, partnered and co-published peer-reviewed journals provide the most citations (40%) and articles (32%) in the field of optics and photonics, according to Thomson Reuters 2010 Journal Citation Reports® (JCR). Of the 78 journals listed in the JCR's Optics category, 7 OSA Journals are included in the top 25 titles, ranked by Impact Factor.

OPTICS CATEGORY RANKINGS

Journal	Impact Factor	Total Citations	Rank by Impact Factor	Rank by Total Cites
OpEx	3.749	46,603	5	2
OL	3.316	43,482	7	3
JLT	2.255	13,565	14	6
JOSA B	2.095	10,905	16	10
JOSA A	1.933	13,437	18	8
AO	1.703	33,723	23	4
JDT	1.674	703	25	40
JON*	1.509	558	32	43
JOCN*	1.128	133	37	69
JOSK	0.886	188	45	63
COL	0.692	841	52	36
JOT	0.311	435	74	46

Learn more about OSA Journals' Impact Factor and Eigenfactor rankings at www.osa.org/librarians.

* JON (*Journal of Optical Networking*) became JOCN (*Journal of Optical Communications and Networking*) in 2009.

OSA is pleased to offer a one-time purchase option for perpetual access to influential optics content, covering 1917–2005.

The OSA Digital Archive provides pioneering research in optics and photonics from core OSA journals, including research published by Nobel Laureates and prestigious members of the physics and engineering communities.

Covered Content

The content in this archive includes approximately 108,000 articles and conference proceedings from the following OSA Publications:

- ▶ **Applied Optics** 1962–2005
- ▶ **Journal of the Optical Society of America** 1917–1983
- ▶ **Journal of the Optical Society of America A** 1984–2005
- ▶ **Journal of the Optical Society of America B** 1984–2005
- ▶ **Optics and Photonics News** 1990–2005
- ▶ **Optics Express** 1997–2005
- ▶ **Optics Letters** 1977–2005
- ▶ **Optics News** 1975–1989
- ▶ **OSA Conference Proceedings** 1979–2005

Contact elec@osa.org for pricing and additional details.

The Journal Collection

Advances in Optics and Photonics

AOP aop.osa.org

An online review journal with a difference, AOP delivers comprehensive review articles and multimedia tutorials appropriate to a broad range of audiences including students, researchers, faculty, business professionals, and engineers. Interactive HTML presentations enhance this authoritative content, which covers advances in optics and photonics from fundamental studies to engineering applications, including materials, devices, and systems.

Chinese Optics Letters

COL col.osa.org

COL is one of the leading Chinese optics journals, and the only international optics journal in China. Published in English, it promotes the generation, application, and archiving of knowledge in optics and disseminates them worldwide. Its subject coverage includes fiber optics and optical communications; lasers and laser optics; nonlinear optics; image processing; instrumentation, measurement and metrology; integrated optics; materials; quantum optics; ultrafast optics, and more.

Journal of the Optical Society of Korea

JOSK josk.osa.org

The *Journal of the Optical Society of Korea* is published in English by the Optical Society of Korea (OSK) and is made available through Optics InfoBase in partnership with OSA as of January 2010. JOSK is supported by author fees and is fully open access for readers. The journal publishes papers reporting recent advances, state-of-the-art research and development results in all areas of optical science and technology. The journal's coverage includes technical fields of optics such as optical materials, optical devices, optical systems, and/or topics related to theoretical and experimental aspects of new principles.

Journal of the Optical Society of America B

JOSA B Optical Physics josab.osa.org

A general optics research journal that complements JOSA A, emphasizing research on the fundamentals of the interaction of radiation with matter such as quantum optics, nonlinear optics, and laser physics. Topical areas include atom optics and cold atoms, integrated and fiber optics, metamaterials, anophotonics, photonic crystals, photorefractive optics and holography, physics of optical materials, spectroscopy, THz optics, ultrafast phenomena, and other related subjects.

Optical Materials Express – NEW!

OMEx omex.osa.org

Optical Materials Express is OSA's newest peer-reviewed, open-access journal publishing full-length articles in a rapid publication timeframe. OMEx primarily emphasizes advances in novel optical materials, their properties, modeling, synthesis and fabrication techniques; how such materials contribute to novel optical behavior; and how they enable new or improved optical devices.

Optics Express

OpEx oe.osa.org

The original online, open-access optics journal, OpEx is known for its rapid time to publication and large number of citations. OpEx publishes peer-reviewed articles that report new developments of interest to the optics and photonics community in all fields of optical science and technology. Also included with *Optics Express* is *Energy Express*, an open-access quarterly supplement to *Optics Express*. Launched in 2010, *Energy Express* is dedicated to rapid developments in optics for sustainable energy.

Optics Letters

OL ol.osa.org

OSA's flagship journal, OL provides rapid dissemination of new results in all areas of optics with short, original, peer-reviewed communications. The articles often describe research-in-progress, thus reflecting the leading edge in the "science of light." OL covers the latest research in optical science, including atmospheric optics, quantum electronics, Fourier optics, integrated optics, and fiber optics. With an ISI impact factor of 3.316, *Optics Letters* is among the top-ranked journals in the category of optics.

AVAILABLE ONLINE

OSA offers new subscription options in 2012 for access to valuable content published in OSA's Conference Proceedings that chronicles scientific discoveries back to 1979.

PUBLISHER: OSA

ISSN: 2162-2701

All Conference Proceedings Package

Subscribe to the complete collection of over 360 OSA conference proceedings, including access to the entire Major Meetings Series and all OSA Topical Meetings. Conference name and years of coverage are listed at www.opticsinfobase.org/conferences.cfm.

FREQUENCY: **Over 30 new conferences to be added in 2012** (1979–present).

\$2500 ONLINE ONLY

Major Meetings Series – NEW

Get access to the full series of proceedings in one of the following OSA Major Meetings:

- ▶ **Conference on Laser and Electro-Optics (CLEO)**
- ▶ **Frontiers in Optics (FiO)**
- ▶ **Optical Fiber Communications Conference/National Fiber Optics Engineers Conference (OFC/NFOEC)**

\$750 ONLINE ONLY

Single Conference – NEW

Get access to a single year of all proceedings in one of OSA's Major Meetings (FiO, CLEO, or OFC/NFOEC).

\$250 ONLINE ONLY

CONVENIENCE & COST-EFFECTIVENESS

Enjoy preferential pricing when you subscribe to several journals either through three print plus online combination packages or see our online-only combination packages on the next page. If you need guidance on the best package option for your institution, please contact us at elec@osa.org.

Optics InfoBase Collection

COVERING THE FULL SPECTRUM OF OPTICS AND PHOTONICS

This online cutting-edge repository is OSA's Digital Library. It includes all of OSA's content, and complements it with key co-publications that encompass more than 200,000 articles and conference proceedings from 360 conferences. For 2012, there are two subscription options, Optics InfoBase and Optics InfoBase Premium.

Optics InfoBase Includes:

- Advances in Optics & Photonics** (2009–PRESENT)
- Applied Optics** (1962–PRESENT)
- Applied Spectroscopy** (1946–PRESENT)
- Biomedical Optics Express** (2010–PRESENT)
- Chinese Optics Letters** (2003–PRESENT)
